

IEE10 Series Sarix® IP Rugged Fixed Dome

INDOOR/OUTDOOR, 1.3 MPX EXTENDED PLATFORM HD DIGITAL CAMERA

Product Features

- Up to 1.3 Megapixel Resolution (1280 x 1024)
- Up to 30 Images per Second (ips) at 1280 x 720
- Interchangeable CS-Mount Lenses (Optional)
- Auto Back Focus for High Precision Focusing
- H.264 and MJPEG Compression
- Day/Night Capability
- Sensitivity Down to 0.03 lux
- Power over Ethernet (IEEE 802.3af) or 24 VAC
- Focus Button with Delay Enables Precision Focus Through Bubble
- Up to 2 Simultaneous Video Streams
- Local Storage (Micro SD) for Alarm Capture
- Bidirectional Half-Duplex Audio
- Built-in Analytics

The **Sarix® IEE10 Series extended platform** is a 1.3 megapixel (MPx) network indoor/outdoor rugged fixed dome camera designed with industry-leading image quality and high performance processing power. Its sturdy metal design is vandal and tamper resistant and is designed for worry-free use in a wide range of environmental operating conditions.

The **IEE10 Series** is perfect for use in environmental air handling spaces. The back box is plenum rated per 2008 NEC article 300.22(C)(2).

Sarix technology defines the next generation of video security imaging performance, delivering high definition (HD) resolution, advanced low-light capabilities, consistent color science, and fast processing power. The H.264 compression video files are up to considerably smaller making high definition video more affordable.

Fixed Dome Camera

The **IEE10 Series** can be ordered with or without lenses. All models include a camera in an outdoor enclosure that is ready to install. These cameras accept a wide range of megapixel varifocal CS-mount lenses. This day/night model has a mechanical IR cut filter for increased sensitivity in low-light situations.

The **IEE10 Series** supports two simultaneous video streams. The two streams can be compressed in MJPEG and H.264 formats across several resolution configurations. The extended platform gives real-time video (30 ips) with HD resolution at 720p using H.264 compression for optimized bandwidth and storage efficiency. The streams can be configured in a variety of frame rates, bit rates, and group of pictures (GOP) structures for additional bandwidth administration.

(SHOWN WITH OPTIONAL IE-S SURFACE MOUNT ADAPTER)

- Adaptive Motion Detection
- Open IP Standards
- ONVIF v1.02 Conformant

Built-In Analytics

Pelco Analytics enhance the flexibility and performance of the IEE10 Series camera. Eight Pelco behaviors are preloaded and included as standard features of the IEE10DN models. Pelco behaviors can be configured and enabled using a standard Web browser, and they are compatible with Endura® or a third-party system that supports alarms using Pelco's API. Camera models are also available with preloaded **OV Analytic Suites**.

Web Interface

The **IEE10 Series** uses a standard Web browser for powerful remote setup and administration.

Window Blanking

Window blanking is used to conceal user-defined privacy areas that cannot be viewed by an operator. The **IEE10 Series** supports up to four blanked windows. A blanked area will appear on the screen as a solid gray window.

Video Systemization

The **IEE10 Series** easily connects to Pelco IP and hybrid systems such as Endura version 2.0 (or later) and Digital Sentry® version 7.3 (or later). The camera is also compatible with Digital Sentry NVs (DS NVs), a full-featured video management software, which is available as a free download at www.pelco.com. DS NVs includes four free Pelco IP licenses and allows for the management of video from up to 64 cameras.

The **IEE10 Series** features open architecture connectivity to third-party software. Pelco offers an application programming interface (API) and software developer's kit (SDK) for interfacing with Pelco's IP cameras.

PELCO ANALYTICS

The IEE10 Series includes eight user-configurable behaviors. The camera is capable of running up to three behaviors at the same time; although, the number of behaviors is limited to the available processing power of the camera and the type of analytic being used.

Note: Available processing power is determined by the settings for compression standards, resolution, image rate, bit rate, and analytic configuration.

For each behavior, you can create several custom profiles that contain different camera settings. With these profiles, you can set up different scenarios for the behavior, which will automatically detect and trigger alarms when specific activity is detected.

Pelco Analytics are configured and enabled using a standard Web browser, and Pelco behavior alarms are compatible with Endura or a third-party system that supports Pelco's API system. Multiple Pelco behaviors can be scheduled to work during a certain time or condition. For example, during the day, a camera can be configured with Object Counting to count the number of people that enter a lobby door. At night, the operator can change the profile to Camera Sabotage to trigger an alarm if a camera is moved or obstructed. Available Pelco behaviors include:

- **Abandoned Object:** Detects objects placed in a defined zone and triggers an alarm if the object remains in the zone longer than the user-defined time allows. An airport terminal is a typical installation for this behavior. This behavior can also detect objects left behind at an ATM, signaling possible card skimming.
- **Adaptive Motion Detection:** Detects and tracks objects that enter a scene and then triggers an alarm when the objects enter a user-defined zone. This behavior is primarily used in outdoor environments with light traffic to reduce the number of false alarms caused by environmental changes.
- **Camera Sabotage:** Detects contrast changes in the field of view. An alarm is triggered if the lens is obstructed with spray paint, a cloth, or a lens cap. Any unauthorized repositioning of the camera also triggers an alarm.
- **Directional Motion:** Generates an alarm in a high traffic area when a person or object moves in a specified direction. Typical installations for this behavior include an airport gate or tunnel where cameras can detect objects moving in the opposite direction of the normal flow of traffic or an individual entering through an exit door.
- **Loitering Detection:** Identifies when people or vehicles remain in a defined zone longer than the user-defined time allows. This behavior is effective in real-time notification of suspicious behavior around ATMs, stairwells, and school grounds.
- **Object Counting:** Counts the number of objects that enter a defined zone or cross a tripwire. This behavior might be used to count the number of people at a store entrance/exit or inside a store where the traffic is light. This behavior is based on tracking and does not count people in a crowded setting.
- **Object Removal:** Triggers an alarm if an object is removed from a defined zone. This behavior is ideal for customers who want to detect the removal of high value objects, such as a painting from a wall or a statue from a pedestal.
- **Stopped Vehicle:** Detects vehicles stopped near a sensitive area longer than the user-defined time allows. This behavior is ideal for airport curbside drop-offs, parking enforcement, suspicious parking, traffic lane breakdowns, and vehicles waiting at gates.

OBJECTVIDEO (OV) ANALYTIC SUITES

ObjectVideo Analytics Suites are preloaded on selected IEE10 Series cameras and require an OV Ready system to configure the behaviors for alarm notification.

OV Security Suite

The OV Security Suite is easy to use and includes Tripwire Detection, Inside Area Detection, and Camera Tamper Detection behaviors.

- Tripwire Detection identifies objects that cross a user-defined line drawn within the camera's field of view.
- Inside Area Detection identifies objects entering, appearing, or moving within a user-defined area.
- Camera Tamper Detection identifies significant contrast changes in the camera's field of view; for example, if the lens is obstructed by spray paint, a cloth, or a lens cap.

OV Security Suite Plus

The OV Security Suite Plus includes the behaviors of the OV Security Suite plus Multi-Line Tripwire Detection, Loitering Detection, and Leave Behind Detection behaviors.

- Multi-Line Tripwire Detection identifies objects that cross two defined lines and generates an event based on defined parameters, including directionality. Defined parameters for this behavior include direction, sequential order, and time between crossing each tripwire.
- Loitering Detection identifies when people or vehicles remain within a user-defined area beyond a specified period of time. This behavior is effective for real-time notification of suspicious behavior around ATMs, stairwells, and school grounds.
- Leave Behind Detection detects objects placed in a defined zone and triggers an alarm if the object remains in the zone longer than the user-defined time allows.

OV Event Counting Suite

The OV Event Counting Suite uses advanced object calibration and additional features for schedules, parameters, and multiple rules. The suite includes behaviors for Tripwire Counting, Enters/Exits Counting, Loiter Counting, Occupancy Sensing, and Dwell-Time Monitoring.

- Tripwire Counting counts people or objects that cross a user-defined line.
- Enters/Exits Counting calculates the number of people that enter and exit an area without using a tripwire.
- Loiter Counting is useful in analyzing how frequently people stop in front of a product, display, or other area of interest. This feature is also useful in assessing promotion effectiveness and product interest.
- Occupancy Sensing counts people and generates a new value every time the occupancy level changes. Since each occupancy output is time-stamped, the data can be used to determine average occupancy levels or to correlate data to point-of-sale or other business scenarios.
- Dwell-Time Monitoring rules can be set up to record the length of time it takes an object to enter and exit an area. Along with queue size information, wait times can also be assessed. This behavior can be used to evaluate consumer interaction for a point-of-sale display or digital advertisement.

TECHNICAL SPECIFICATIONS

The following diagram illustrates how the camera system interprets streaming video when embedded analytics are configured and enabled.

IMPORTANT NOTE: PLEASE READ. The network implementation is shown as a general representation only and is not intended to show a detailed network topology. Your actual network will differ, requiring changes or perhaps additional network equipment to accommodate the system as illustrated. Please contact your local Pelco Representative to discuss your specific requirements

TECHNICAL SPECIFICATIONS

GENERAL

Imaging Device	1/3-inch (effective)
Imager Type	CMOS
Imager Readout	Progressive scan
Maximum Resolution	1280 x 1024
Signal-to-Noise Ratio	50 dB
Auto Iris Lens Type	DC drive
Electronic Shutter Range	1 ~ 1/100,000 sec
Wide Dynamic Range	60 dB
White Balance Range	2,000° to 10,000°K
Sensitivity	f/1.2; 2850°K; SNR > 24 dB
Color (1x/33 ms)	0.5 lux
Color SENS (15x/500 ms)	0.12 lux
Mono (1x/33 ms)	0.25 lux
Mono SENS (15x/500 ms)	0.03 lux
Dome Attenuation	
Clear	Zero light loss
Smoked	f/1.0 light loss
Construction	Cast aluminum body with polycarbonate bubble
Finish	Light gray powder coated
Weight (without lens)	
Unit	1.5 kg (3.3 lb)
Shipping	2.3 kg (5.0 lb)
Available Languages	Chinese, English, French, German, Italian, Portuguese, Russian, Spanish, and Turkish

ELECTRICAL

Port	RJ-45 connector for 100Base-TX Auto MDI/MDI-X
Cable Type	Cat5 or better for 100Base-TX
Power Input	18 to 30 VAC; 24 VAC nominal or PoE (IEEE 802.3af class 3)
Power Consumption*	< 7 W; < 40 W with heater operation
Current Consumption	
PoE	< 140 mA maximum
24 VAC†	< 510 mA without heater operation; < 2.5 A maximum with heater operation
Local Storage	Micro SD
Alarm Input	10 VDC maximum, 5 mA maximum
Alarm Output	0 to 15 VDC maximum, 75 mA maximum
Service Port	External 3-connector, 2.5 mm provides NTSC/PAL video output
Accessory Port	Connects Pelco accessories
Audio	Bidirectional: half duplex Line level/external microphone input; 600-ohm differential, 1 Vp-p max signal level
Compression	G.711 PCM 64 kbit/s

*Does not include optional devices connected to the accessory port.

† Required for heater operation.

MECHANICAL

Lens Mount	CS mount, adjustable
Pan/Tilt Adjustment	
Pan	368°
Tilt	160° (10° to 170°)
Rotate	355°

ENVIRONMENTAL

Operational Temperature	-30° to 50°C (-22° to 122°F); PoE operates between 0° to 50°C (32° to 122°F), 24 VAC power is required for heater operation below 0°C (32°F)
Thermostat Operation	Heater thermostatically controlled to operate below < 5°C (< 41°F)
Operational Humidity	20% to 80%, noncondensing

IMPACT RESISTANCE

Impact Resistance	IK10++ per EN62262 (70J)
-------------------	--------------------------

NOTE: VALUES IN PARENTHESES ARE INCHES; ALL OTHERS ARE CENTIMETERS.

IN-CEILING

SURFACE MOUNT

(Mounting Ring Is Available as an Accessory)

PENDANT

(Mount Is Available as an Accessory)

TECHNICAL SPECIFICATIONS

VIDEO

Video Encoding	H.264 high, main, or base profile and MJPEG
Video Streams	Up to 2 simultaneous streams; the second stream is variable based on the setup of the primary stream
Frame Rate	Up to 30, 25, 24, 15, 12.5, 12, 10, 8, 7.5, 6, 5, 4, 3, 2, 1 (dependent upon coding, resolution, and stream configuration)

	Resolution				MJPEG		H.264 Base Profile	
	MPx	Width	Height	Aspect Ratio	Maximum IPS	Recommended Bit Rate	Maximum IPS	Recommended Bit Rate
	1.3	1280	1024	5:4	20.0 ips	10.0 Mbps	20.0 ips	3.4 Mbps
	1.2	1280	960	4:3	20.0 ips	9.8 Mbps	20.0 ips	3.0 Mbps
	0.9	1280	720	16:9	30.0 ips	10.0 Mbps	30.0 ips	2.9 Mbps
	0.5	800	600	4:3	30.0 ips	7.7 Mbps	30.0 ips	2.0 Mbps
	0.3	640	480	4:3	30.0 ips	4.9 Mbps	30.0 ips	1.5 Mbps
	0.1	320	240	4:3	30.0 ips	1.2 Mbps	30.0 ips	0.5 Mbps

Additional Resolutions 640 x 512, 640 x 352, 480 x 368, 480 x 272, 320 x 256, and 320 x 176

Supported Protocols TCP/IP, UDP/IP (Unicast, Multicast IGMP), UPnP, DNS, DHCP, RTP, RTSP, NTP, IPv4, SNMP v2c/v3, QoS, HTTP, HTTPS, LDAP (client), SSH, SSL, SMTP, FTP, and 802.1x (EAP)

Users

Unicast Up to 20 simultaneous users depending on resolution settings (2 guaranteed streams)

Multicast Unlimited users H.264

Security Access Password protected

Software Interface Web browser view and setup

Pelco System Integration Endura 2.0 (or later) or Digital Sentry 7.3 (or later)

Open API Pelco API or ONVIF v1.02

Minimum System Requirements

Processor Intel® Core® 2 Duo microprocessor, 2.6 GHz

Operating System Microsoft® Windows® XP, Windows Vista®, or Mac® OS X 10.4 (or later)

Memory 2 GB RAM

Network Interface Card 100 megabits (or greater)

Monitor Minimum of 1024 x 768 resolution, 16- or 32-bit pixel color resolution

Web Browser* Internet Explorer® 7.0 (or later) or Mozilla® Firefox® 3.5 (or later); Internet Explorer® 8.0 (or later) is recommended for configuring analytics

Media Player† Pelco Media Player or QuickTime® 7.6.5 for Windows XP, Windows Vista, or QuickTime 7.6.4 for Mac OS X 10.4

ANALYTICS

Required Systems for Pelco Analytics

Pelco Interface WS5200 Advanced System Management Software on an Endura 2.0 (or later) system

Open API The Pelco API can transmit behavior alarm data to third-party applications, available at pdn.pelco.com.

Required System for Object Video Suites OV ready-compliant system with OV Ready video management system

*Internet Explorer is not supported by Mac OS X 10.4.

†This product is not compatible with QuickTime version 7.6.4 for Windows XP or Windows Vista. If you have this version installed on your PC, you will need to upgrade to QuickTime version 7.6.5.

TECHNICAL SPECIFICATIONS

MODELS

IEE10DN-0	Sarix environmental network dome camera, extended platform, 1.3 MPx, day/night, no lens, smoked dome, with built-in Pelco analytics
IEE10DN-1	Sarix environmental network dome camera, extended platform, 1.3 MPx, day/night, no lens, clear dome, with built-in Pelco analytics
IEE10DN8-1	Sarix environmental network dome camera, extended platform, 1.3 MPx, day/night, 2.8 ~ 8 mm varifocal megapixel lens, clear dome, with built-in Pelco analytics
IEE10DN-0CP1	Sarix environmental network dome camera, extended platform, 1.3 MPx, day/night, no lens, clear dome, with built-in OV Event Counting Plus Suite
IEE10DN-OS1	Sarix environmental network dome camera, extended platform, 1.3 MPx, day/night, no lens, clear dome, with built-in OV Security Suite
IEE10DN-OSP1	Sarix environmental network dome camera, extended platform, 1.3 MPx, day/night, no lens, clear dome, with built-in OV Security Plus Suite

CERTIFICATIONS/RATINGS/PATENTS

- CE, Class A
- FCC, Class A
- UL/cUL Listed
- C-Tick
- Meets NEMA Type 4X and IP66 standards
- ONVIF v1.02

OPTIONAL ACCESSORIES

IX-SC	Service/monitor cable, 1.22 m (4 ft); compatible with standard BNC connectors
POE20U560G	Single port PoE injector

RECOMMENDED MOUNTS

IE-P	Pendant mount adapter, light gray
IE-S	Surface mount adapter, light gray
SWM-SR, IWM-SR*	Wall mounts, light gray
IWM24-SR*	Wall mount with cable feedthrough; includes integral 24 VAC, 100 VA transformer; light gray finish
PP350*	Parapet mount, gray
PP351*	Rooftop or horizontal surface mount, gray

*Requires the IE-P pendant mount adapter.

RECOMMENDED LENSES

13M2.2-6	Megapixel lens, varifocal, 2.2 ~ 6.0 mm, f/1.3 ~ 2.0
13M2.8-8	Megapixel lens, varifocal, 2.8 ~ 8.0 mm, f/1.2 ~ 1.9
13M2.8-12	Megapixel lens, varifocal, 2.8 ~ 12.0 mm, f/1.4 ~ 2.7
13M15-50	Megapixel lens, varifocal, 15.0 ~ 50.0 mm, f/1.5 ~ 2.1

Pelco megapixel lenses have been designed and tested to deliver optimal image quality for the IEE10 Series dome. The use of standard definition lenses on IEE10 Series megapixel cameras will limit the resolution of the camera, creating poor image quality.

Field of View in Degrees		High Resolution Streams (> 800 x 600) Aspect Ratio		
		16:9	4:3	5:4
2.2 mm	Horizontal	109	109	109
	Vertical	63	83	89
2.8 mm	Horizontal	89	89	89
	Vertical	48	66	70
6.0 mm	Horizontal	42	42	42
	Vertical	24	32	34
8.0 mm	Horizontal	32	32	32
	Vertical	18	24	25
12.0 mm	Horizontal	21	21	21
	Vertical	12	16	17
15.0 mm	Horizontal	16	16	16
	Vertical	9	12	13
50.0 mm	Horizontal	5	5	5
	Vertical	3	4	4

Note: For 800 x 600 (or lower) resolutions in 4:3 or 5:4 aspect ratios, the field of view is smaller than listed above. Refer to the Installation/Operation manual for details.
